### Evergreens

The desirability of evergreens as a foundation planting around the house has been well recognized by the public in general. Heretofore the cost of such a planting has been prohibitive to many.

We are, therefore, making the following special offers of the choicest nursery products obtainable, in order to place them within the means of those who wish to beautify their home grounds. Pyramidal, globe and spreading varieties are included in all of the offers, which harmonize and produce a pleasing effect.

## Planting Instructions

Evergreens will be received with balls of earth wrapped around in burlap. When planting, leave burlap on, cutting top open, and throwing back to rot. It is essential to dig the holes larger in diameter than the size of the balls on the evergreens, but avoid deep planting. After planting, water thoroughly, and continue to do so for several days.
